

Conflict Minerals Policy

February 12, 2015

Shape LLC is committed to ensuring that the products it sells do not incorporate “conflict minerals” (minerals which are smelted into tin, tantalum, tungsten and gold) sourced from entities which directly or indirectly finance conflict in the Democratic Republic of Congo or adjoining countries. Shape LLC requires its suppliers to:

- Perform sufficient due diligence into their respective supply chains to determine whether products sold to us contain tin, tantalum, tungsten or gold, and, if so, whether and to what extent those metals are sourced from conflict-free smelters;
- Report to Shape LLC the results of such due diligence to enable Shape LLC to comply with its legal obligations and policy goals; and
- Commit to being or becoming “conflict-free”, so that any such metals are sourced only from conflict-free smelters.
